

Task description

Try to use the knowledge from episode number two to replicate this layout.

View modifiers used:

- .resizable()
- .frame(width: , height:)
- .shadow(radius:)
- .foregroundColor(.color)
- .font(.system(size: , weight:))
- .padding()
- .background(Color.color)
- .cornerRadius()

Stacks used:

- VStack, HStack

Note:

Try to use custom View for this screen and call it in the ContentView.

Goodluck! :)
